New Age Technology Consulting Announces Partnership with Star2Star Communications

***Company to Offer Next Generation Internet Telephony Solution for
Businesses as an Authorized Dealer of Star2Star Communications***

Bradenton FL - October 16th, 2008 – New Age Technology Consulting, a premier provider of unique, high quality telecommunications products and services is pleased to announce that the company has recently partnered with Star2Star Communications, developer of 'The World's Most Reliable Business Grade Internet Phone Solution', as an Authorized Star2Star Solution Provider. Headquartered in Bradenton, Florida, New Age Technology Consulting offers unique, next-generation business telecommunications platforms and proven VoIP solutions designed to meet the specific needs of small and mid-sized companies in the south Tampa bay area.

New Age Technology Consulting has chosen to partner with Star2Star Communications in order to provide customers an enhanced business communications solution set that offers many specific benefits for their clients. These benefits include powerful feature capabilities, tremendous cost savings, superior call quality and business continuity processes that provide for complete disaster recovery and automatic failover of inbound calls in cases of equipment damage, power outages or failed internet connections.

Mona Levinson, CEO of New Age Technology Consulting, hailed the adoption of Star2Star as part of the company's solution set, stating, "We have selected Star2Star as it has proven to be a superior IP phone system and service platform that has exceeded the demanding needs of our customers by providing a better capability than traditional phone service, better call quality, and state-of-the-art features, while providing our clients significant monthly savings." Levinson continued, "Since Florida tends to experience many types of storms, wind and lightning strikes that can affect our clients' facilities, many of our customers choose this communications solution for the business continuity and disaster recovery attributes that keep them in business where other telephone services can fail."

Star2Star's unique IP telephony architecture provides both the business phone system and phone service offering powerful telephone system features like seamless integration of multiple branch office locations, remote workers and cellular phone extensions, unlimited voicemail with messages delivered to email, phone line pooling across locations; all at a cost that is typically lower than the customers current phone bill.
